It presented its first test in 2003 but was not used for eight years after 2006. The first three Test matches here all ended in draws, and the last game before the hiatus, in 2006, saw Brian Lara become one of his slowest centuries. The deck was flat and full of runs. The ground made its ODI debut the year it was built, but the Windies never had much luck there. In 11 ODIs since 2008, the Windies have won just one game. The ground was a great place for the 2010 World Twenty20. It was renamed the Darren Sammy International Stadium in 2016 from Beausejour Stadium and paid tribute to St Lucia's most famous cricket son. One of the stands was named after batsman Johnson Charles. Last time out the most recent Test here was in September 2014, when the Windies beat Bangladesh by 296 runs in the evening on day four, thereby snapping the streak of draws. The Tigers won the toss and opted to bowl, a first for the ground, and allowed the Windies' top courts to rack up the runs. It was easily batting on day one, and the hosts had 380 all out. Bangladesh then scored 161 all, with Kemar Roach sacking a five-fer as pace dominated. The Windies opted not to enforce the next, declaring 269 for four, with Shiv Chanderpaul working a century. So the Tigers needed 489 to win, and they came nowhere near when they were bowled out for 192. The deck took a twist at this stage when Sulieman Benn took five wickets. They said Windies batsman Kraigg Brathwaite: It was a good pitcher, obviously first day it did a fair bit. It got a little better batting later on. Windies capain Denesh Ramdin: It was a very good batting field, but when the ball moves, it's always hard for the new batters. Happy Hunting Ground No one in this Windies team has played more than one Test here, as Chris Gayle, Denesh Ramdin, Shiv Chanderpaul, and the like are not in this squad. As such, Kraigg Brathwaite is the best batsman, average 54 over two innings. Bowling wise, none of their top bowlers play on the ground, with Kemar Roach dropping, Jerome retired from the format, and Sulieman Benn not in the picture. As such, Shannon Gabriel flies the flag, with two wickets in one Test. India has played here before, but back in 2006, so none of the current players. not. a record on the ground. Weather forecast The forecasts say it will be warm for five days, about 30 degrees, but it won't keep the rain away. Each day is set to have rain of different lengths, from showers to more sustained periods. It's unlikely we'll get five full days. Conclusion Batting first is probably the best idea, as a result shows, as a result shows, if there are runs in the field as long as one can withstand the initial pace. Spinners come into it as the days go by, as is usually the case everywhere, although rain can slow the decline and make it safer, if slower, batting.
